message:hive.metastore.sasl.enabled can't be false in non-testing mode

spark-shell 执行下列语句报错

```
import org.apache.spark.sql.{SaveMode, SparkSession}
val df=spark.table("xy_app_hive.member_rule_w_incr_v2")
df.write.mode(SaveMode.Overwrite).saveAsTable("xy_wulichuang.test1")
Caused by: org.apache.hadoop.hive.metastore.api.MetaException: hive.metastore.sasl.enabled can't be
false in non-testing mode
     at
org.apache.hadoop.hive.metastore.api.ThriftHiveMetastore$create_table_with_environment_context_result$cr
```

解决方法：

sentry.hive.testing.mode

ture
